**Synopsis of Book**
Matthew is seriously overweight, a target of bullies but a wonder at working out the most food you can buy at the school tuckshop. His services are much in demand at lunchtime. However, when he faints during a Physical Education lesson, the doctor is worried that his obesity may have already caused him to develop Type 2 Diabetes. Mum takes notice and cuts back on her work hours in order to spend time with Matthew, cooking healthy food and exercising with him. And it turns out quite a few of the kids at school are on his side as well in his battle to lose weight; especially Kayla, the girl of his dreams who has never worried about his size anyway.
